Salled 28th, tugs R M Waterman, towing 2 barges (passed out Sandy Hook at 6:32 PM); Norfolk, towing 3 (do at 10 PM).
The corrected reading of the barometor freduced to sea level) at New York on Tuesday, Aug 29, 1922, at 8 AM, as reported by the United States Weather Bureau, was hirty and eleven-hundredins (30.11) inches. This closely approximates seven hundred and sixty-four and eight-tenths (764.8) millimeters. Captains of all vessels now lying in or near the ports of New York and Brooklyn can advantageously use the above official data for observing whether their own baromiters require any considerable correction or addugtment.

CAPE RACE, NF, Aug 29-Barometer con, 30.23 inches; wind, SW, light breez weather, dense fog; temperature, 65 deg

### HIRED MAN IS BLAMED FOR EMPLOYER'S DEATH

TAMPA, Fin. Aug 26-Sailed, str Altamaha,

Latter Was Shot on His Farm During a Quarrel.

BRIDGEPORT, Conn., Aug. 29 .- Coroner J. J. Phelan to-day found Hugh Moun, STATION WGY, GENERAL ELECTRIC 69, criminally responsible for the death 59, criminally responsible for the death of his employer, Edwin F. Balley, 70, of Pound Ridge, N. Y., who was shot and killed by the former during a quarrel on Balley's farm.

The Coroner sent his finding to State's Attorney H. S. Cummins, who will make a finding himself and transmit it to the New York State authorities.

### JOINT RATE CONFERENCES.

Meeting—Far East Postponed.

The Brazil and River Plate conferences met jointly yesterday for the first time in nearly a year, as a result of the decision of the lines in the Brazil group to bury the hatchet and resume conference tariffs and rulings. Harmony, was much in evidence at the meeting, and rates were not discussed, but some minor questions of organization were disposed of. The Far East conference meeting scheduled for yesterday was postponed to this morning, when the troublesome \$25,000 forfoit proposal will again be considered.

# **BUSINESS NOTES**

Manufacturers Report Good Buying of Broad Silks-Fall Orders Placed.

retail trade are said to be faring much metter than was generally expected. For the most part retailers have been carrying sub-normal stocks, and with an increasing consumer demand they are now rushing into the market in an effort to secure goods for immediate delivery. Canton crepe and crepe de chines continue to enjoy a popular demand. A foremost manufacturer says that his mills are now running at about 90 per cent, of capacity, compared with about 60 per cent. a few months ago. The trade looks for the continuance of a healthy demand for broad silks.

After several days of heightened activity and rising prices, the Yokohams raw silk market yesterday quieted down somewhat, according to cables to local importers. There was a moderate amount of trading, although buyers did not operate as freely as in the previous day. The local market also was quiet, with prices holding fairly firm. Buying was in small volume and largely was to fill in stocks of manufacturers. Local importers are quite considered that an increased demand from silk manufacturers is in store for them, as stocks are believed to be rather small.

See Higher Hardware Prices.

Hardward jobbers and manufacturers believe that the recent twenty per cent, wage advance made by the United States Steel Corporation and several of the steel independents will be reflected in the hardware markets within a short time by price advances, says Hardward Age. The coal and rail strikes are causing stock shortages and delays in deliveries. Nails and many items of builders hardware are daily becoming more difficult to obtain. Both wholesale and retail business during August was active, and many jobbers have estimated that the volume of business during the past month was fifty per cent larger on an actual dollars and cents basis than it was during August, 1921. Retail stocks generally are low and the demand it was during August, 1921. Retail stocks generally are low and the demand

### Shoe Styles for Fall,

Shoe Styles for Fall.

Our shoe styles are well in advance of those in Europe, according to a foremost retailer who returned yesterday from a business trip abroad. Contrary to some reports that the long narrow vamps were being adopted for this season in Europe, the merchant reported that practically all shoes over there show the medium vamp with somewhat rounded toe. Moderately high, graceful heels will be seen often on new shoes in his opinion. The factor believes that well dressed women everywhere will wear the Colonial slipper this fall, and that low shoes with open-work designs

## **ALL AMERICA CABLE** AND THE POSTAL JOIN

Two Companies in Alliance Involving 50,000 Miles of Submarine Lines.

System and the All America Inc., have entered into an

alliance involving 50,000 miles of submarine cable, which not only provides
for an exchange of traffic between the
two systems but also provides that the
agents and offices of each shall act as
agents for the other, according to an
announcement made yesterday by Clarence H. Mackay, president of the Postal
Telegraph-Commercial Cables.

"This agreement," said Mr. Mackay,
"is a most forward step in cable communication because it creates the greatest and most comprehensive American
cable system, extending north to south
from all parts of the United States and
Canada to Central and South America
and from east to west from Europe to
the Orient, involving a total cable
mileage of 50,000 miles, and marks an
epoch in the development of American
cable communication in that it is distinctly an all American system.

"While the two systems which have
entered into this agreement will main
tain their separate corporate identities,
the agreement provides for so harmonious a contact between the two that
in actual operation messages will be
handled with all the speed and facility
possible in a single organization.

"Every Postal Telegraph office and
every Commercial Cable office will be an
active agency for receiving and delivering messages from and to South America via the All America Cables, just as
if it were an actual All America Cables
office, while every All America Cables
office in the United States or in Central
or South America will be an active
agency for Postal Telegraph-Commercial
Cables.

"In brief, this agreement between the
two systems welds more closely the two

The Commercial Pacific Cable Com-pany operates 10.016 miles of cable between San Francisco and Honolulu, Midway, Guam, Tokio, Manila and Shanghai,
